Chicago or New York.

THE TEACHERS' ASSOCIATION

Two Last Days of the Association Unusually Interesting.

The exercises Thursday and Friday closed the most successful meeting of the teachers of Arizona ever held in the Territory. They had an excellent program and it was carried out in full. The exercises increased in interest with each succeeding day until the close.

The citizens of Flagstaff gave the teachers a formal reception at Babbitt's opera hall Thursday evening, and entertained their guests before supper with songs, music, recitations, etc., after which Dr. T. J. J. See, of the Lowell Observatory, delivered a lecture on astronomy. This lecture was a rare treat, full of thought and replete with scientific research and familiarity with the masters of this great science from antiquity to the present time.

After lunch was served by the ladies of Flagstaff a portion of the large and intelligent assemblage indulged in social conversation, while those who were inclined to dance indulged in this amusement for a short time, and the assemblage was dismissed.

Below we give the proceedings of the Association for Thursday and Friday, together with the resolutions passed:

THURSDAY MORNING.

Session opened at 10 o'clock by the President of the Association Supt. Creager.

The roll call was given by the Secretary the teachers responding by original quotations which developed many witty and unique stanzas. Father Dilly then delivered the invocation, and Mrs. T. A. Biondani followed with an excellent vocal solo, exquisitely rendered. She responded to an encore with a spirited ballad. She maintained the high standard desired by the musical committee commensurate with the skill of her accompanist, Mrs. Dr. Robinson.

Judge Layton, who had filled so creditably the chairmanship of the Institute, was invited to take the chair, and Superintendent Creager gave the annual address. The address though limited by time was crowded with strong, terse, relevant thoughts on our school system. He compared in a most skillful manner the scholasticism of the ancients with the Democracy of the present. While the address was intensely didactic it was very practical. His points on compulsory education swung around the nucleus, that if "we the people" are taxed for the education of our youth, "we the people" have a right to demand that our youth should be compelled to avail themselves of the privilege.

After recess Professor Irish gave a most instructive paper on "Science in the Public Schools," which with the discussions by Professor Meskimmans and Professor Wasson proved to be a valuable feature of the program.

After a request that Professors Wasson and Case favor the Association with an impersonation later during the session the chair adjourned to meet 1:30 p. m.

THURSDAY AFTERNOON.

Session called to order by chairman. A solo by Mr. Reid delivered in his rich baritone voice received an encore. A recitation by Mrs. B. Nelson, given in such a pathetic appealing style as an artist only can imitate.

Mr. Reid and Mrs. Sison then gave a vocal duet in which their blending voices made a harmonic effect that was highly appreciated.

Miss Lillian Gardner in her paper "Kindergarten in the Public Schools," was a new departure in child culture. Her ideas were well received and quite original. Miss Fanny Bury and Miss Ida Woolf heartily endorsed the paper and clearly showed that the introduction of the Kindergarten in the school was practical and profitable.

After a brief recess a general discussion of the Kindergarten in the public school was taken up and carried on by Mrs. Hood, Miss Hoxworth, F. S. Hafford, Mr. Corser and others.

A change was made in the regular work of the session, and omitting T. F. Grindell's paper on Patriotism, the subject of Free Text-books necessary to Free Schools was presented by F. S. Hafford. The speaker is heartily in favor of free text books and made a

strong appeal for their adoption in the public schools of Arizona. He was followed by others, among whom were Wm. S. DeVol, Dr. McNaughton, and Miss Hood, all of whom heartily favored the adoption of free text books.

It was moved and seconded that Dr. McNaughton be instructed to draft a Resolution to the effect that free text books be adopted in the public schools and present the same to the committee on resolutions. Motion carried.

The matter of adopting a school flower was brought before the Institute. A motion was made by Dr. McNaughton, and seconded by Mr. DeVol, that a committee be appointed to consider the adoption of a flower by the pupils and teachers of the territory and report at the next Association meeting. The motion was carried, and the chair appointed the following committee, Dr. McNaughton chairman, Wm. Storre DeVol, and F. S. Hafford.

As a committee on railroad transportation to the National Educational Association, Dr. McNaughton, Ter. Supt. Shevman and Prof. Wasson. The committee is to report to the teachers through the newspapers.

Session adjourned.

FRIDAY MORNING.

Session opened at 9 o'clock by the chairman. After a song led by Prof. Dr. McNaughton, Prof. Grindell gave an enthusiastic and spirited address upon "Patriotism." The paper was a most fitting one with which to close one of the finest programs that the Arizona Teachers' Association has ever had.

W. S. Tipton chairman of the committee on resolution, read the resolutions which will appear in another column.

After the report of the officers being given, Prof. Young made a neat speech placing Phoenix in nomination as the next place of meeting, being duly seconded, the Secretary was instructed to cast the vote of the Association, Phoenix.

Prof. Grindell now read Prof. Blunt in nomination as President of the Association. He was unanimously elected.

J. C. Wasson moved that the Superintendents of the various counties be elected as vice-presidents.

On motion of the Secretary Prof. Grindell was nominated as Secretary of the Association, and was unanimously elected.

Miss Kernan was then elected as Treasurer.

President Blount was then called to the chair and ex-President Creager in a neat speech gave over the gavel.

A vote of thanks was given to the FLAGSTAFF SUN-DEMOCRAT for the kind notices and full report given in their columns.

Nothing further being on the program a motion was made to adjourn and carried.

Thus closed a profitable, pleasant and harmonious Association.

J. CURTIS WASSON, Sec. MISS LAURA DOBBS, Asst. Sec.

Your committee on resolutions beg leave to submit to your consideration the following resolutions:

RESOLVED, That the Joint County Institute and Territorial Association in its annual meeting held at Flagstaff, Ariz., Oct. 18 to 22, 1897 hereby extend its sincere thanks to the teacher's committee composed of the teachers of the Flagstaff school and ladies of Flagstaff for their very generous and successful efforts in the entertaining of visiting teachers.

That the sincere thanks of this body are due to the following for their earnest and talented efforts towards making this meeting a success and one of remembrance.

To the leader and members of the music committee for their talented efforts towards completing the success of this meeting.

To Dr. See and staff for courtesies and many kindnesses to the teachers as visitors to the Lowell Observatory and personally to Dr. See for his very scholarly and instructive lecture before the Association and also to Dr. Miller for his kind offer to lecture on "Man in the Ages."

That a vote of thanks be extended to THE SUN-DEMOCRAT for a copy of the paper for Association week.

That it is the sense of this Institute and Association that the time has

come for a compulsory educational law and that each teacher should use his personal influence to set the matter clearly before his representative in the next legislature.

RESOLVED, That it is the consensus of opinion of this Association that the purchase of text books by either the district or county, for the free use of the pupils in the public schools of this Territory is practicable, economical and desirable.

RESOLVED, That it is the sentiment of this body that a vote of appreciation be extended to the Honorable Board of Supervisors for the voluntary proffer of the county court house in which to hold our sessions.

That our deepest gratitude is due to the citizens of Flagstaff for their efforts in making this one of the most successful sessions of this body.

WHEREAS, It has pleased the Heavenly Father in his goodness and wisdom to remove from our ranks since our last session, our fellow teachers, Prof. Netherton and —Roher,

Be it resolved by the members of this Association, that, while mourning the loss of our loved brothers and companions as teachers, we bow in humble submission to the Divine will, and extend our sympathy to the bereaved friends and relatives.

GEO. BLOUNT, Association
MARY WHITE, Association
GEO. U. YOUNG, Association
MRS. NELSON, Association

An Important and Valuable Institution.

A great city is naturally the home of many peculiar enterprises, some having personal aggrandizement in view, some being purely selfish, while others are organized and conducted for the general good; in a word, having for an object "the greatest good for the greatest number." In this last catalogue we may safely place the *Encyclopedia Americana*, D. D., is the manager at Baltimore, Pa., with branches at Philadelphia, Pa.; Toronto, Canada; New Orleans, La.; New York, N. Y.; Washington, D. C.; San Francisco, Cal.; Chicago, Ill.; St. Louis, Mo.; and Denver, Colo.

The object of the Union Teachers' Agencies, briefly stated, is to secure positions in all parts of the country for teachers desiring employment, and has the proud record of having filled thousands of positions. The Agencies is the agent of its patrons only, and spares no effort to get the best and most reliable information possible for the benefit of those entrusting their commissions to its charge. The management claims to be able to save patrons money and lots of trouble for a very small compensation, and our investigation of the Agencies convinces us it does all and more than it claims.

That the Union Teachers' Agencies is admirably equipped to do this is evidenced by the fact that since it has been in operation not a word of complaint has been made from any quarter, while thousands have been served in a perfectly satisfactory manner. As to the standing and responsibility of the Union Teachers' Agencies, which, as was said before, is unassailable, it is sufficient to say no institution stands higher, as will be readily attested by leading citizens of the Union. In addition, the Western Trade Journal has made an investigation of this Agency on its own behalf, in order to answer a number of inquiries which it has received regarding the same, and takes pleasure in adding its voice to the general verdict that it is the culmination of what has long been needed in the direction the Agency has assumed, and the management is worthy of all confidence, and the enterprise one of the most sterling character.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the liver and kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1 per bottle at Dr. D. J. Brannen's drug store.

TERRITORIAL.

Tucson has organized a dancing club.

The public school building at Winslow is to be heated with steam.

Tempe claims to be the most extensive cattle feeding point in the Territory.

The oranges from the groves under the Arizona canal are already being brought into the city. They have not as yet fully attained color but are sweet and palatable.—Phoenix Gazette.

There are 115 regular attendants at our public school this term. This is the largest number that have ever attended school in this place. The school census gave us 150 children of school age, and according to the census the attendance is too small.—Winslow Mail.

A religious wave is said to have struck the Middle Verde section. The Dunkards, the Baptists, the South Methodists and a Holiness band are all preaching salvation at a lively rate. The Holiness band has a two masted tent with a seating capacity of 150 people. There are seven of the Holiness people, ladies and gentlemen. They live in tents stretched near place of worship.—Prescott Courier.

The state of Arizona Improvement Co., has just completed the purchase of all the right, title and interest of E. H. Rollins & Sons in the Colorado River Irrigation Co., including several hundred acres of patented land, the pumping plant and canal which heads on the military reservation in West Yuma. The amount of the purchase price has not yet been made public, but runs up into the thousands, as it is a valuable piece of property.—Arizona Sentinel.

A person with a considerable amount of spare time on his hands has collected the following list of words which may be spelled forwards or backwards—palindromes, as they are called in learned language—and we publish the same for benefit of Prospector readers. Anna, bab, bib, bob, bub, civic, dad, deed, delifed, dowed, did, eece, eve, ewe, eye, gong, gig, gag, level, madam, noon, otto, pap, peep, pip, pop, pup, redder, refer, reappear, reviver, rotator, sees, sexes, shabs, tat, tit, toot.—Tombstone Prospector.

Georgie Redmond, the morphine fiend died yesterday evening at the Florence Crittenton rescue home of paralysis. Hers was a strange history; while a young girl she committed a murder in Texas. She fled the country and became a dissolute woman her strong vice being an inordinate craving for cocaine and morphine. A few years ago she was sentenced to serve a term of years in the penitentiary for killing a man at Williams. She has been twice in the insane asylum and a few weeks ago realizing that her case was hopeless she submitted to being taken to the Crittenton home where she died.—Phoenix Gazette.

A peculiar instance showing the sagacity of a dog is told of the fire of last Saturday afternoon on South Third Avenue. The fire occurred in the kitchen of Mr. James Dufton. Mr. Dufton was sitting on the back porch of the house reading a newspaper when the bull dog belonging to his son ran up and caught hold of the bottom of his trousers, attempted to drag him from his seat. He kicked the dog away which ran barking into the kitchen. Mr. Dufton continued to read when the dog returned and jumped into his lap and down again and again ran into the kitchen. It

Royal makes the best pure, wholesome and delicious.

ROYAL BAKING POWDER
Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

was only when the dog for the third time caught hold of his trousers and pulled that Mr. Dufton awoke to the fact that the dog wanted him to go into the kitchen and he did so to find the kitchen in flames. He soon quenched the flames with a few buckets of water and saved the house from total destruction.—Phoenix Herald.

The Grandest Remedy.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at Dr. D. J. Brannen's drug store.

Our Thanksgiving Turkey.

If President McKinley and Gov. McCord are holding back their Thanksgiving proclamations on our account we would take it as a personal favor if they would extend the time so that we can investigate the ancestry, age and quality of turkeys that a generous public is liable to thrust upon us.

As to the sex we have no choice, but we have been taught to reverence and respect old age, and therefore send us in young, fat turkeys so that we won't have to depart from our training. Our appetite is acclimated to cranberries and a generous supply of cranberry sauce should accompany each turkey, as we prefer that variety of sauce for embalming purposes.

If the donors should have no minors among their flocks of turkeys, a chicken of young and tender years might be substituted, and we would be thankful for it with the expectation of receiving a turkey for a Christmas dinner.

Fads in Medicine.

There are fads in medicine as in every thing else and a "new thing" frequently sells for a short time simply because it is new. But in medicine, as in nothing else, the people demand and will be satisfied only with positive, absolute merit. The fact that Hood's Sarsaparilla has stood its ground against all competition, and its sales have never wavered but have remained steadily at the top, demonstrates, beyond any doubt, the intrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales continue to be the largest in the world.
